

DISTRIBUTION OF EQUIPMENT FOR MOBILE CONSTRUCTIONS

OUR VARIETY OF CATALOGUES

Equipment and fixing for industrial vehicles

Surface treatment products

DECMO
DIFFUSION D'ÉQUIPEMENTS POUR CONSTRUCTIONS MOBILES

Our activity is focused on the supplying of equipments and products for the manufacturing and also repairing of vehicles.

Supplying for the manufacturing of equipped vehicles (truck, motorhome, caravan, boat, commercial vehicle, emergency vehicle, horse trailer, trailer) in France and Europe.

Supplying for the repairing of vehicles in the North of France area.

DECMO

is also...

A team of 30 persons dedicated to very specialized customers.

Stock management of more than 10 000 references.

Research for a continuous adaptation of products to meet the market evolution requirements.

Participation to professional exhibitions linked to our activities.

RANGES

Our range of products concerns three major activities :

- Hardware store and fixing for industrial body

Being the historical first activity of the company, the supplying of truck and special vehicles accessories is still an important department, particularly in the field of technical fixing, constantly developing.

- Hardware for furniture and interior accessories

In addition to the usual products on stock, we organize the production of specific items with drawings, particularly in the field of plastic injection and screw cutting metal.

- Surface treatment

We provide sealants, adhesive bonding products and body refinishing paint. Our own laboratory enables us to realize any shade of colour in can or spray.

**OUR PERMANENT GOALS :
AVAILABILITY, RAPIDITY, RELIABILITY**

CONTENTS

TECHNICAL SLIDES

SLIDES FOR DRAWERS WITH FULL EXTENSIONS

- Length to define
- Push system on the front of the drawer to lock or unlock
- The drawer can be opened 50 to 125mm from the closed position
- Triggering force : 5kgs or 8kgs upon request
- Load up to 45kgs (Maximum load per sliding pair with a 450mm width drawer)
- Maintaining system in closed position
- Stroke 100%
- Slide thickness of 12.7mm
- Front disconnection
- Retaining system in a closed position
- Adjusting of the drawer height through eccentric (3.2mm)
- Installation with wood screws M4
- Only for an edge assembling

HINGES

HINGES FOR GLASS DOOR

170° HINGE

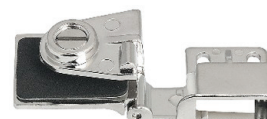

- Nickered or polished zamak
- for interior mounting
- Without glass drilling - with spring
- Maximum 5mm thickness
- Depth and height adjustment

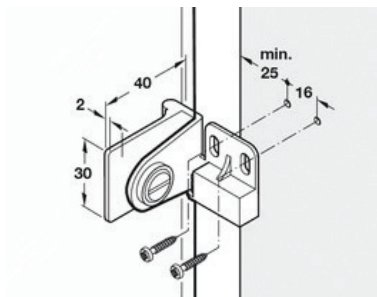

33770

170° MEDIAN HINGE

- Polished nickered or polished chromed zamak
- For interior mounting
- Without glass drilling - with spring
- Maximum 5mm thickness
- Depth and height adjustment

33771

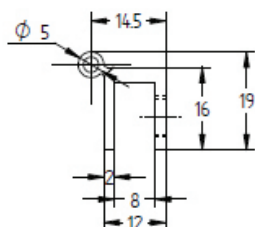

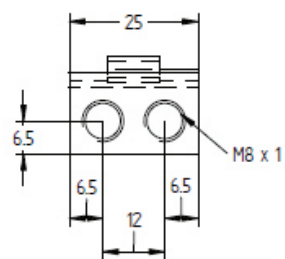

170° HINGE

- Polished nickered or polished chromed zamak
- Without glass drilling - with spring
- Glass thickness from 5 to 7mm

33772

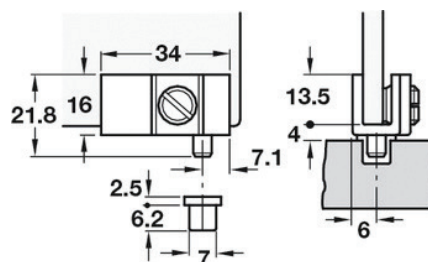

90° HINGE

- Black zamak
- Without glass drilling - with spring
- Maximum 6,5mm thickness

33773

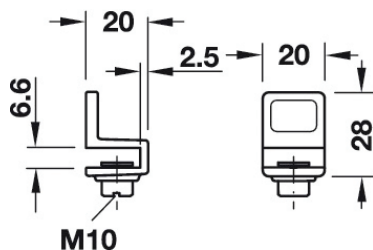

HINGES

HANDLES FOR GLASS DOOR

HANDLE FOR GLASS DOOR

- Zinc plated alloy
- Without glass drilling
- Maximum 6 mm thickness

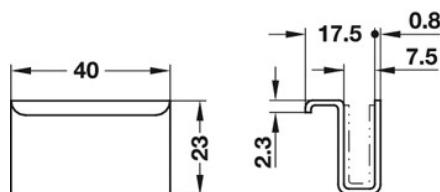

33781

MAGNETIC LATCH WITH HANDLE

- Chromed or black steel
- To fix with a foam adhesive
- Glass thickness from 4 to 6mm

33782

HINGES

HINGES WITH CONSTANT TORQUE

HINGE ASSEMBLY

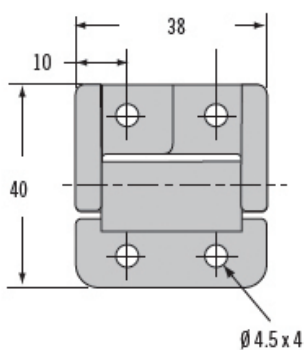

- Black colour
- Holds in every position
- No adjustment required
- Long cycle life about 20 000 cycles

MEDIUM SIZE

- Aluminum alloy
- Black paint

HINGES

HINGES WITH DETENTS

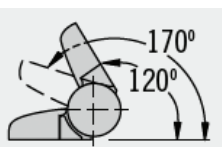

DETENT HINGE WITH COVER

- Acetal and black nylon
- Holds door at 120° and 170°
- Secondary mechanical support no needed
- Opening angle of 180°
- Long cycle life about 20 000 cycles

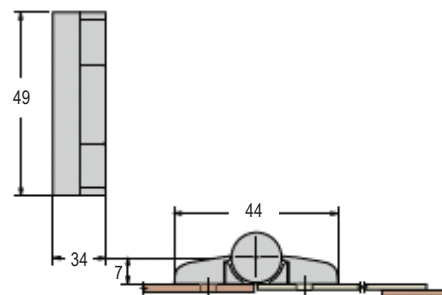

Free motion
(no snap-on)

36404

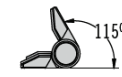

36405

DETENT HINGE WITH COVER

- Black acetal
- Inner component hardened steel or stainless steel
- Holds door at 80°, 115° or 150°
- Secondary mechanical support no needed
- Opening angle of 180°
- Long cycle life about 20 000 cycles

OUR RANGES

DIFFUSION D'ÉQUIPEMENTS POUR CONSTRUCTIONS MOBILES

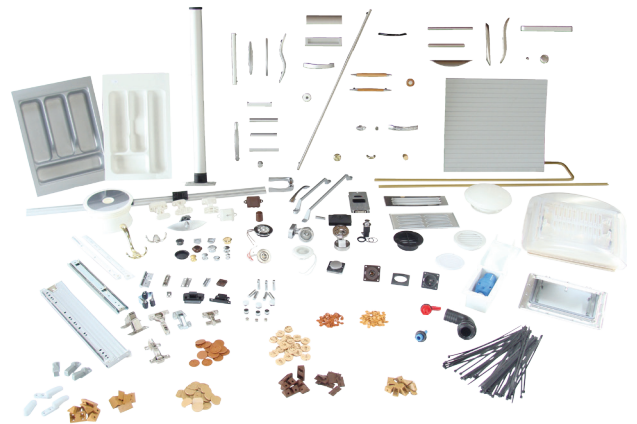

INDUSTRIAL VEHICLES

Equipment and fixing products for industrial vehicles (trucks, commercial vehicles, trailers).

LEISURE VEHICLES

Products for the interior equipment of leisure vehicles such as motorhomes, caravans, boats and emergency vehicles.

PRODUCT / INDUSTRY

Manufacturing and repairing products for bodywork and industry (surface treatment, gluing, and sealing). Our own paint laboratory enables us to realize any shade of colour upon request (cam or spray). Our colorimetric service is available for any colormatching within 48 hours.

LOCKING SYSTEM

ELECTROMECHANICAL ROTARY LATCH LOCKS SOUTHCO R4

UPON REQUEST

For more informations : contact us

The R4-EM series combines the convenience of electronic access control with the security of a robust 100% metal rotating latch mechanism with proven performance in a compact integrated solution.

Easy thrust closure and electronic actuation simplify access in a wide variety of applications. An optional microswitch provides latch status and the delayed release version allows the door to be unlocked when repeated manual opening / closing.

- Lower power consumption : 12 or 24 V c.c
- Compatible with access control signals from any devices
- Higher load capacity
- Available in antirust version for outdoor use
- Door sensor in option

R4-EM-9

R4-EM-9 – Complete series

The R4-EM 9 Series Electronic Rotary Latch delivers next generation electronic latching through microprocessor controlled actuation, providing highly intelligent, reliable electronic access. The internal microprocessor allows expanded intelligence with integrated door and lock status sensing for complete security monitoring. Lightweight extended housing offers increased tamper resistance, while an integrated connector and snap-on manual over-ride bracket simplify installation. Additionally, the 9 Series offers an optional open/close detent feature to prevent unintended door release.

- Push-To-Close Latches, electronic opening
- Higher electromechanical load capability
- With lower power requirements
- Door sensor in option
- Priority mechanical command
- Options available 12 V & 24 V

R4-EM-8

R4-EM-8 – Basic fonctionnalités

The R4-EM 8 Series Electronic Rotary Latch Series combines the efficient and robust performance of a rotary latch mechanism with simplified DC motor actuation. The R4-EM 8 Series is available with an optional door sensor, integrated connector and mechanical override bracket to better protect the locking cam. Flexible, concealed installation provides vandal-resistance and accommodates a variety of cabinet designs.

R4-EM-5 & 7

R4-EM 5 & 7 range – Outdoor use

Southco's R4-EM 5 & 7 Series Electronic Rotary Latch provides reliable electronic access control in demanding environments. With its corrosion-resistant plated-steel or stainless steel outer body construction and fully-sealed internal actuator, the Outdoor R4-EM provides reliable electronic locking that is resistant to moisture and dust. The embedded electronic control allows the integration to an external control system. Is also integrated, the flexibility of an invisible mounting wich allows a large variety of outdoor application.

R4-EM-4 & 6

R4-EM 4 & 6 range – Flare and ghosting

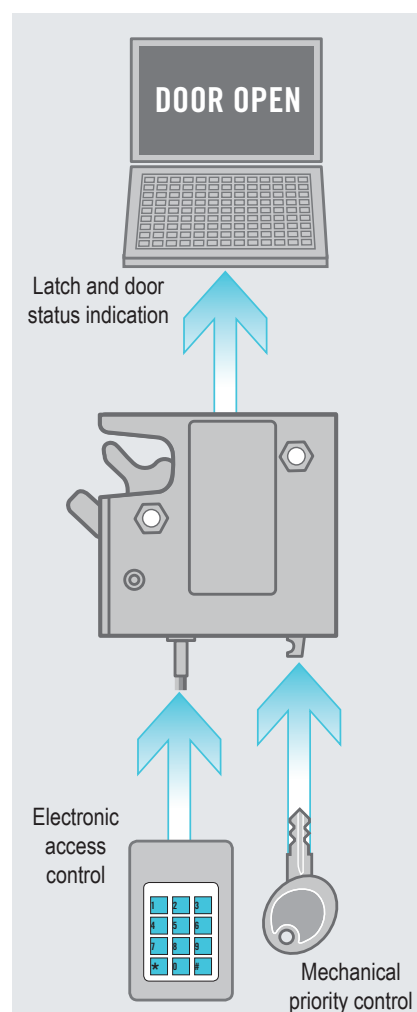

Convenient and reliable, the 4 & 6 Series R4-EM delivers proven electronic access control in a compact, lightweight integrated package. Easy push-to-close operation and simple installation make the R4-EM ideal for transitioning from mechanical to electronic access. An optional microswitch provides feedback on latch status. The R4-EM is available in both auto re-lock and delayed re-lock versions for added flexibility.

R4-EM-1 & 2

R4-EM 1 & 2 range – Manufacture 100 % métal

Easy to install and maintain, the 1 & 2 Series R4-EM delivers the convenience of electronic access control with the security of a proven, robust, all-metal rotary latch design in a compact, integrated package. Easy push-to-close operation and electronic actuation simplify access across a wide variety of applications. The 1 & 2 Series R4-EM accepts access control signals from wireless RF key fobs or network control systems. An optional microswitch provides feedback on latch status, and a delayed re-lock version keeps a door unlocked for manual opening/closing cycles.

LOCKING SYSTEM

ELECTRONIC ROTARY LATCH SOUTHCO R4-EM

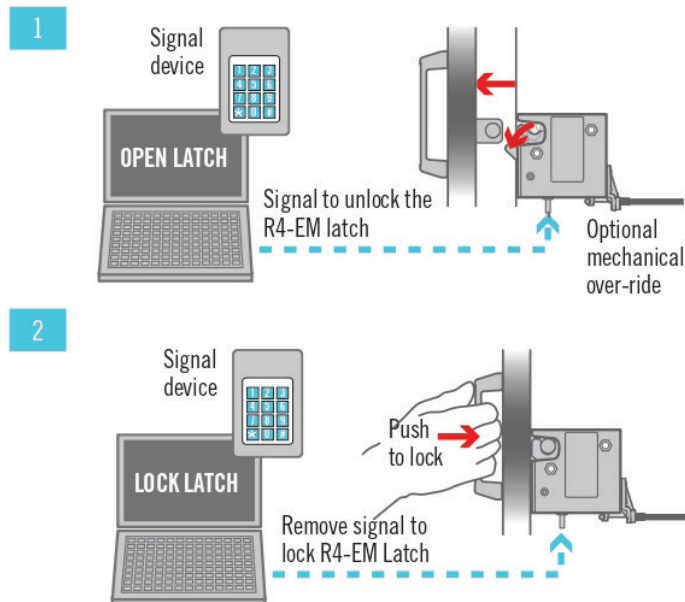

INSTRUCTION FOR THE USE

Functionality

Automatic locking

1. The signal unlocks the latch R4-EM and it releases the cam linked to the support system, rotates and open a soft door. The mechanism locks and then unlocks automatically, regardless of the input signal during this time.

2. Close the door to engage the lock after the unlocking time has expired. The striker makes the came rotate in the closed position.

Function mode

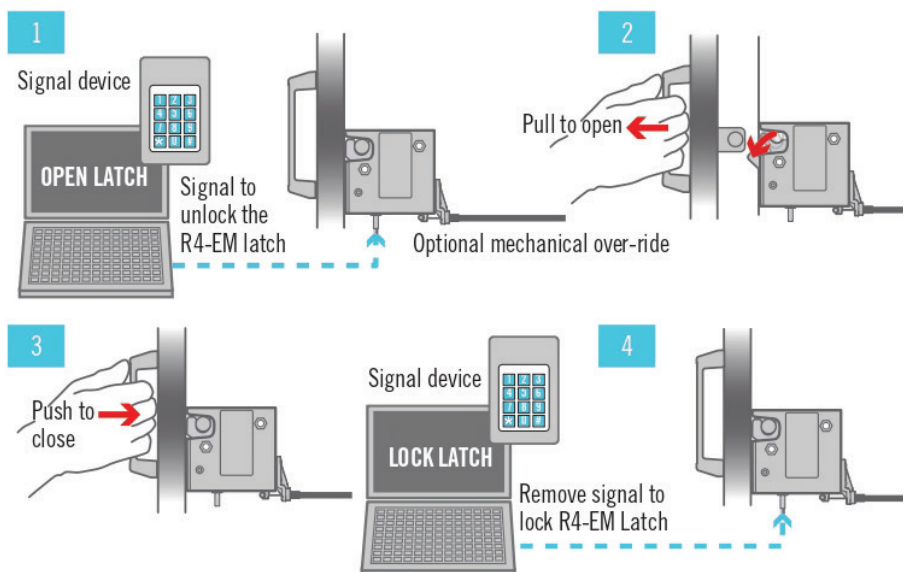

Timer locking

1. The signal unlocks the latch R4-EM, leaving the door unlocked in the closed position. The unlocking delay is controlled by the access control device.

2. Manually pull the door / latch to release the R4-EM latch.

3. Manually push the door to close it. The striker pivots in the closed position, but the latch remains unlocked and can be reopened as long as the signal is present.

4. Once the access is achieved, the signal can be cut to re-lock the latch R4-EM. This operation can be performed with the door in open or closed position.

REMOVABLE CLIPS FASTMOUNT STANDARD RANGE

PC-M1B SELF-TAPPING MALE CLIP 5KGS

- Pull out load per clip : 5kilos
- Clip installation tool : CT-10
- Drilling diameter 10mm
- Tools : CT-01 or CT-09
- Thickness minimum of panel 4.5mm
- Suit with female clips PC-F1A, PC-SF1, PC-RF1 and PC-AF1

37350

PC-M2H SELF-TAPPING MALE CLIP 10KGS

- Pull out load per clip : 10kilos
- Clip installation tool : CT-10
- Drilling diameter 10mm
- Tools : CT-01 or CT-09
- Thickness minimum of panel 9mm
- Suit with female clips PC-F1A, PC-SF1, PC-RF1 and PC-AF1

37350

PC-F1A SELF-TAPPING FEMALE CLIP

- Clip installation tool : CT-03
- Drilling diameter 16,8mm
- Tools : CT-07 or CT-13
- Suit with male clips PC-M1A, PC-M2H, PC-SM2, PC-SSM2H and PC-VM1

37355

PC-VM1 SELF-TAPPING MALE CLIP 10KGS

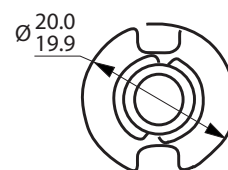

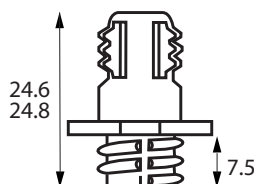

- For irregular surfaces
- Pull out load per clip : 10kilos
- Clip installation tool : CT-10
- Drilling diameter 10mm
- Tools : CT-01 or CT-09
- Thickness minimum of panel 9mm
- Shearing : 50kilos
- Suit with female clips PC-F1A, PC-SF1, PC-RF1 and PC-AF1

37352

PC-VMX SELF-TAPPING MALE CLIP 15KGS

- For irregular surfaces
- Pull out load per clip : 15 kilos
- Clip installation tool : CT-10
- Drilling diameter 10mm
- Tools : CT-01 or CT-09
- Highly resistant clip, designed for heavy and thick ceiling or vertical panels
- Shearing : 90kg
- Suit with female clips PC-F1A, PC-SF1, PC-RF1 and PC-AF1

37352

REMOVABLE CLIPS FASTMOUNT STANDARD RANGE

PC-SM2 MALE CLIP TO STICK 5KGS

- Pull out load per clip : 5kg
- Suit with female clips PC-F1A, PC-SF1, PC-RF1 and PC-AF1
- Bi-component epoxy adhesive

37351

PC-SM2H 10KG MALE CLIP TO STICK

- Pull out load per clip : 10kilos
- Suit with female clips PC-F1A, PC-SF1, PC-RF1 and PC-AF1
- Bi-component epoxy adhesive

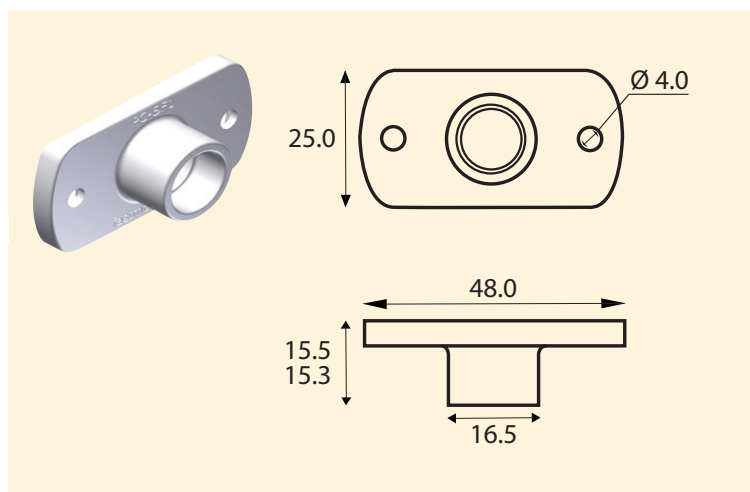

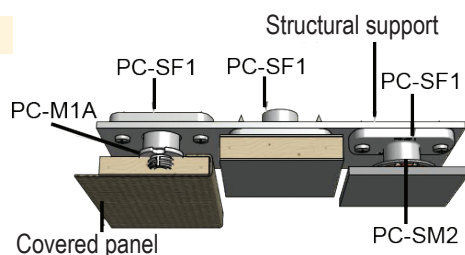

37351

PC-SF1 SURFACE MOUNT FEMALE CLIP

- Clip to screw
- Both direction using
- Suit with male clips PC-M1, PC-M2H, PC-SM2, PC-SM2H and VS-M1

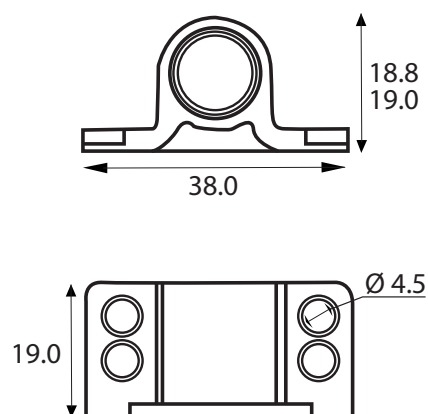

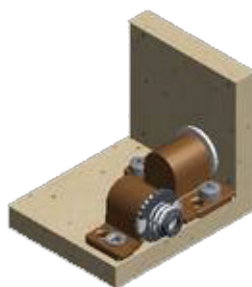

37356

PC-RF1 SURFACE MOUNT FEMALE CLIP FOR 90 °SETTING

- Clip to screw
- Suitable with male clips PC-M1, PC-M2H, PC-SM2, PC-SM2H and VS-M1

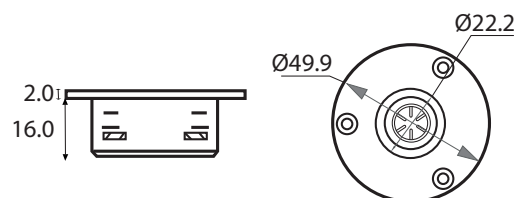

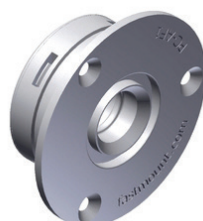

37357

PC-AF1 FEMALE PUSH AUTOFIT CLIP

- Female clip for mounting with lateral adjustment
- Pull out load per clip : 5kilos
- Suitable with male clips PC-M1A, PC-M2H, PC-SM2, PC-SM2H and PC-VM1

37358

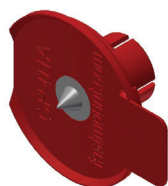

REMOVABLE CLIPS FASTMOUNT STANDARD RANGE

CP-01ST STANDARD PROFILE CENTERPOINT WITH STEEL TIPS

Standard profile centerpoint with steel tips to align holes in panel and frame for correct clip alignment.

- Drilling diameter : 10mm
- Tools : CT09 or directly clipped in the clips females already laid PC-F1A, PC-SF1, PC-RF1 and PC-AF1

37375

CT-03 INSTALL TOOL FOR PC-F1A

Use for screwdriver making sure to have the correct torque

37380

CT-05 UPHOLSTERED PANEL REMOVAL TOOL

- Stainless steel tool
- Not to use with painted panels

37385

CT-10 INSTALL TOOL FOR SELF-TAPPING MALE CLIPS. STD LP

Tool for installing self-tapping male clips. PC-M1A, PC-M2H, PC-VM1, LP-M8 and security panel PS-150

Use for screwdriver making sure to have the correct torque

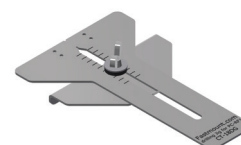

37381

CT-18DG DRILLING GUIDE FOR CLIP PC-RF1 (160 X 100)

Drilling guide to mark the mounting screw holes for PC-RF1 clips into panels of 5 to 30mm thickness

UPON REQUEST

CT-01 DRILL BIT 10MM TIPPED

Drill bit diameter 10mm and a pilot hole for CT-07 tooling

For male clips PC-M1A, PC-M2H and PC-VM1

UPON REQUEST

CT-07 DRILL BIT 16,8MM TUNGSTEN

Drill bit 16,8mm tungsten tipped and centering.

- Drilling diameter : 16,8mm
- For female clips PC-F1A

UPON REQUEST

REMOVABLE CLIPS FASTMOUNT STANDARD RANGE

CT-09 DRILL BIT 10MM FORSTNER TYPE

Drill bit 10mm Forstner type, to drill blind holes on the back of lacquered panels.

- Drilling diameter : 10mm

For male clips PC-M1A, PC-M2h and PC-VM1 and centering tip CP-01

CT-13A DRILL BIT CARBIDE 16,8MM

Drill bit 16,8mm carbide tip to drill laminate, fibreglass

- Drilling diameter : 16,8mm

For female clips PC-F1A

UPON REQUEST

CT-15 THREAD TAP FOR PC-F1A

Thread tap to recess the female clip PC-F1A in the polyester, the aluminium or similar

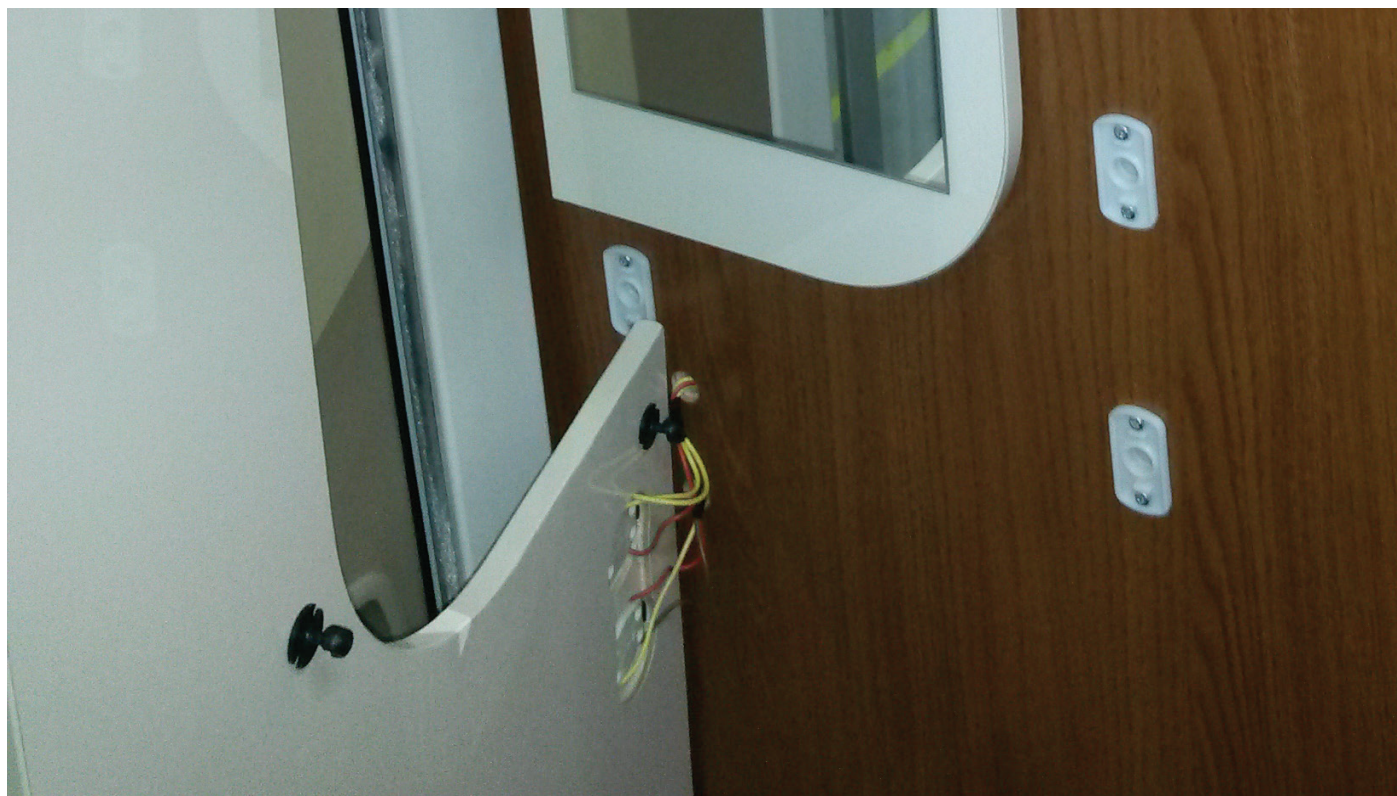

- Drill bit CT-07/13

- Thread tap CT-15

For female clip PC-F1A

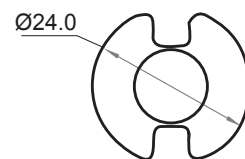

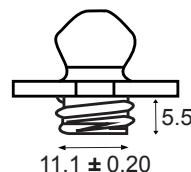

UPON REQUEST

REMOVABLE CLIPS FASTMOUNT LOW PROFILE RANGE

LP-M8A SELF-TAPPING MALE CLIP LP FOR WOOD

- Self-tapping male clip for mounting insert for composites and thin walled panels
- Pull out load per clip : 5kilos
- Clip installation tool : clip CT-10
- Drilling diameter : 10mm
- Tool : CT-09
- Minimum panel thickness : 6mm
- Suitable with female clips LP-F8, LP-DF8 and LP-AF8

37362

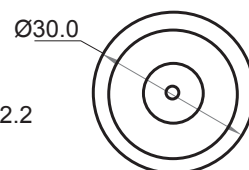

LP-SM8A MALE CLIP LP TO STICK/TO SCREW

male clip to screw or to stick (MEDIUM Profile)

For insert mounting

For any type of panel

- Pull out load per clip : 5kilos
- Epoxy gluing
- Suitable with female clips LP-F8, LP-DF8 and LP-AF8

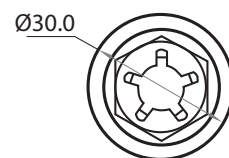

37361

LP-F8 SELF-TAPPING FEMALE CLIP LP WOOD

self-tapping clip MEDIUM for insert mounting

for composites and thin walled panels

- Panel thickness : minimum 10mm
- Pull out load per clip : 5kilos
- Clip installation tool : clip CT-19
- Drilling diameter : 25mm
- Tooling : Standard
- Suitable with male clips LP-M8 and LP-SM8

37365

LP-DF8 LP BA13

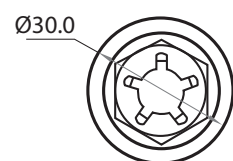

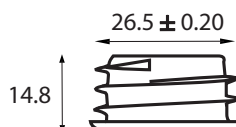

SELF-TAPPING FEMALE CLIP

Female self tapping clip Plaster (13mm)

for insert mounting.

Specifically made for interior design

- Panel thickness : minimum 13mm
- Pull out load per clip : 5kilos
- Clip installation tool : clip CT-19
- Drilling diameter : 25mm
- Tooling : Standard
- Suit with male clips LP-M8 and LP-SM8

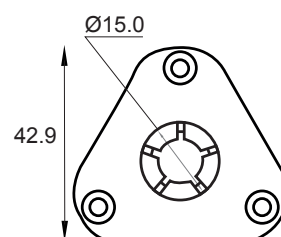

37366

LP-AF8 FEMALE PUSH AUTOFIT CLIP LP

The female clip for mounting with lateral adjustment to screw.

Especially adapted to curved panels.

- Panel thickness : minimum 10mm
- Pull out load per clips : 5kilos
- Suit with male clips LP-M8 and LP-SM8

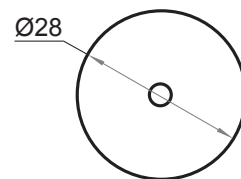

37367

REMOVABLE CLIPS FASTMOUNT LOW PROFILE RANGE

CP-08ST PROFILE CENTERPOINT LP WITH METAL TIP

Profile centerpoint with metal tip to align the clips LP-F8, LP-DF8 and LP-AF8 into the panel and its frame (blind)
Can also be used in a 10 mm hole or for female clip LP-F8 and LP-DF8

37377

CT-01 DRILL BIT 10MM TIPPED

Drilling diameter 10mm and or pilot hole for tooling CT-07
For male clip PC-M1A, PC-M2H and PC-VM1

UPON REQUEST

CT-09 DRILL BIT 10MM TYPE FORSTNER

Drill bit 10mm type Forstner, To drill blind holes on the back of lacquered panels.
drilling diameter : 10mm
For male clip PC-M1A, PC-M2h and PC-VM1 and for profile centerpoint CP-01

UPON REQUEST

CT-10 INSTALL TOOL FOR SELF-TAPPING MALE CLIP STD LP

Install tool for self tapping male clip PC-M1A, PC-M2H, PC-VM1, LP-M8 and panel security PS-150
Use for screwdriver being careful to adapt the tightening torque (refer to instruction manual)

37381

CT-19 INSTALL TOOL FOR SELF-TAPPING FEMALE CLIP

Install tool for self-tapping female clip. Aluminum hexagonal tools for self-tapping, in small quantity, clips LP-F8 and DF8

37382

CT-05 REMOVAL TOOL FOR UPHOLSTERED PANEL

• Stainless steel tooling
do not use on painted panels (refer to instruction manual)

37385

REMOVABLE CLIPS FASTMOUNT VERY LOW PROFILE RANGE

SET OF MALE, FEMALE CLIPS AND STAINLESS STEEL SCREW VL-SS3

The male and female clip set for surface or recessed mounting.
Can be glued or screwed and no specific tools are required for mounting.

VL-03 GREY

• Load up to 5 kilos

This set VL-03 contains : VL-F3 + VL-M3 + VL-SS3
(recommended for panel CP 6mm)

37370 GREY

VL-03H BLACK

• Load up to 10 kilos

This set VL-03H NOIR contains : VL-F3H + VL-M3H
+ VL-SS3 (recommended for curved panel)

37370 BLACK

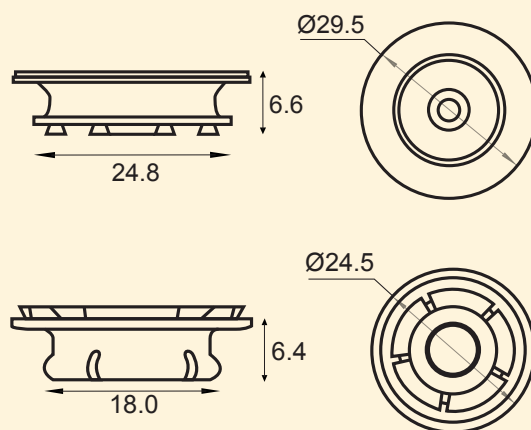

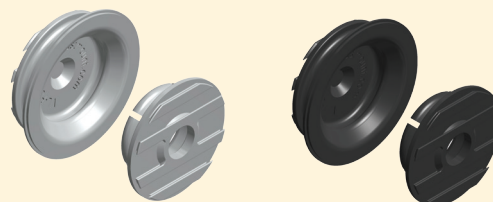

VL-03FR FIRE RATED

• Load up to 10 kilos

This assembly VL-03H NOIR contains : VL-F3FR + VL-M3FR
+ VL-SS3

- Fire rated plastic according to the regulation V-OUL
- Test GWIT for 2mm : 625°C
Test method according to the standard IEC-60695-2-13
- 10kgs pulling load
- Fixing by rivets or screws for steel frame
- Screw fixed to panel to ensure a mechanical connection

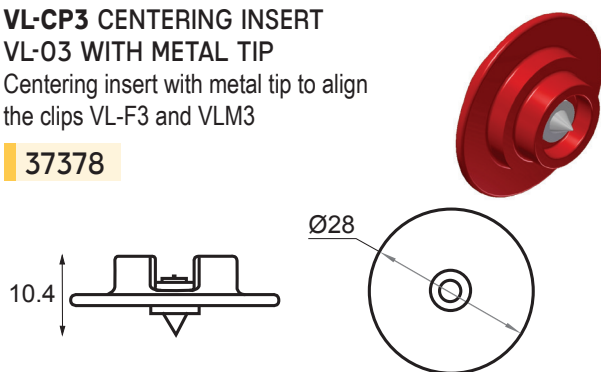

37370 F

VL-CP3 CENTERING INSERT VL-03 WITH METAL TIP

Centering insert with metal tip to align
the clips VL-F3 and VLM3

37378

BI-COMPONENT EPOXY ADHESIVE

Syringe 30ml

61398

Cartridge 400ml - blister of nozzles
(batch of 5)

FIXING

REMOVABLE CLIPS FASTMOUNT TEXTILE RANGE

TC-06 TEXTILE CLIP SET

Secure textile and soft furnishing clip system. Precise cushion fixing and fast cushion removal.

37371

TC-SM6 TEXTILE CLIP SET TO STICK

This clip must be used on a gelcoat, or a painted or lacquered area, which must be cleaned and dried

37371C

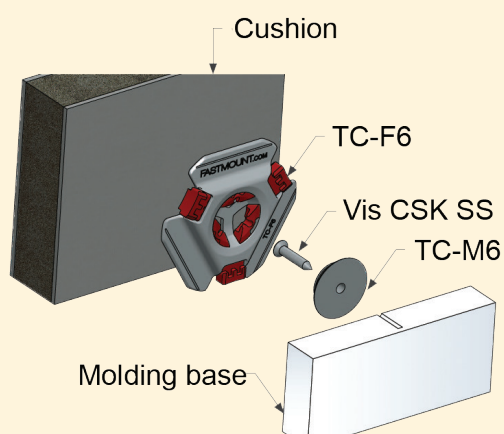

TC-F6H TEXTILE CLIP SET TO STICK

This clip has a slide mechanism that locks into the head of the male clip. Extremely strong hold, tested up to 23kg of load

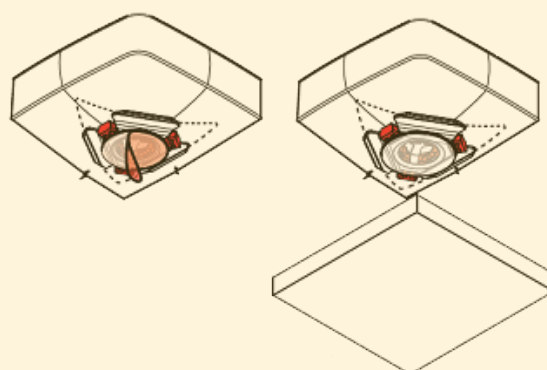

37372

MODEL TO SCREW

MODEL TO STICK

TP-CP6 CENTERPOINT WITH METAL TIP

Centerpoint with metal tip to align the clips TC-06

37388

TC-R6 PLASTIC REMOVAL TOOL

To release the female clips
Can also be unlocked manually

37384

FIXING

REMOVABLE CLIPS FASTMOUNT METAL RANGE

MC-05 SET OF METAL MALE CLIP MC-M5 AND FEMALE CLIP MC-F5

- Pull out load per clips : 5 kilos
- Clip installation tool : Clip MC-IT5
- Drilling diameter : 20mm MC-F5 for 10mm for MC-M5
- Minimum thickness of support for MC-F5 : 13mm and panel for MC-M5 : 8mm

37373

MC-10 SET OF METAL MALE CLIP MC-M10 AND FEMALE CLIP MC-F10

- Pull out load per clips : 10 kilos
- Clip installation tool : Clip MC-IT5
- Drilling diameter : 20mm MC-F10 for 10mm for MC-M10
- Minimum thickness of support for MC-F10 : 13mm and panel for MC-M10 : 8mm

37373

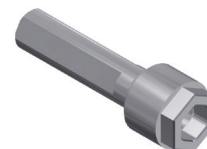

CT-09 DRILL BIT 10MM TYPE FORSTNER

Drill bit 10mm Forstner type, To drill blind holes on the back of lacquered panels. Drilling diameter : 10mm For male clips PC-M1A, PC-M2h and PC-VM1 and for centering inserts CP-01

MC-IT5 INSTALL TOOL FOR METAL MALE CLIP AND FEMALE CLIP

Installation tool for MC-F5/10 and MC-M5/10; 1 tool (2 functions) for female mounting clip MC-F5/10 and male mounting clip MC-F5/19

UPON REQUEST

UPON REQUEST

MC-CP5 CENTERING INSERT MC WITH METAL TIP

Centering red plastic with metal tip to align the clips LP-F8, LP-DF8 and LP-AF8 in the panel and its frame (blind) (blind) to be recessed in female clips MC-F5

37379

CT-17 SUCTION CUP FOR PAINTED PANEL

Suction cup for removal of painted and lacquered panels. (40kilos per suction cup, sold by 2) Always use 2 suction cups to control removal of the panel

UPON REQUEST

CT-05 REMOVAL TOOL FOR UPHOLSTERED PANEL

- Stainless steel tooling do no use on painted panels (refer to instruction manual)

PC-M1 Vario self-tapping WHITE												
PC-F1 - 37355 Tapping female clip												
PC-SF1 - 37356 female clip to screw												
PC-RF1 - 37357 female clip to screw (For 90° mounting)												
VL-F3 Female clip for fitting												
VL-M3 Male clip for fitting												

NOTE

- 1 • The thread clip makes a protuberance on the plywood and must be grinded to be incorporated into the surface before covering it.
- 2 • It is recommended to fill the hole with glue before inserting the clip.
- 3 • It is designed for backrest pose and other options with adjustable depth

subject to important shear constraints.

Usable in association with references PC-M1 and PC-M2H.

N/A • Non-applicable.

These clips fix normally on the support side and not on the panel, the frame is usually in plywood, glass fiber or aluminium.

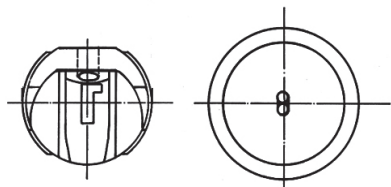

- Recommended
- Can be used
- Not recommended

INSERTS AND PEGS

RIVKLE PN

Benefits

- Large clamping area for a better pull out resistance (on flexible or thin materials)
- Part strengthening thanks to a wide head bearing area
- Reduction of radial stresses on the support (necessary on fragile and fissurable supports)
- Available in steel (Aluminium and stainless steel upon request) from M4 to M10

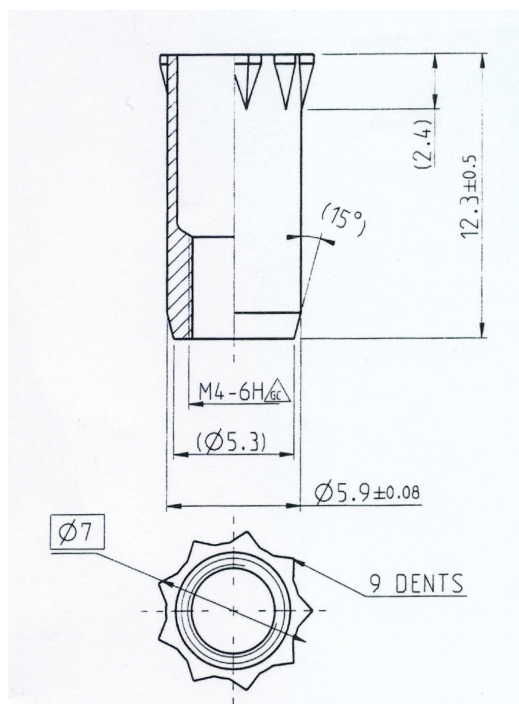

72702 AND 72711

RIVKLE HEX SCREW

- Recessed and anti rotating
- Perfect for wooden surface

- Drilling Ø 6mm
- Mounting effort recommended 6000 N
- Range of clamping 2,5 to 4mm
- Stroke of clamping 7.2cm

72600

SPACING SLEEVE

- Polyamide
- Without collar
- For wooden screw diameter of 4mm

OUR VALUES

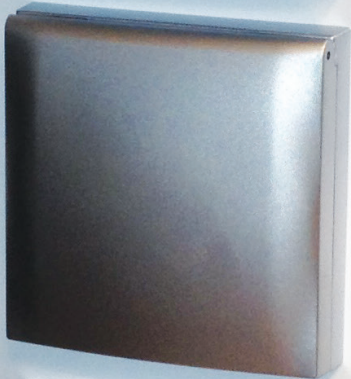

Since 1905, an effective team has always been at the forefront of the activity chosen as a ground of action :

EQUIPMENT FOR MOBILE CONSTRUCTION

For the inner equipment of caravans, mobile homes, special vehicles, boats, and as a whole, for all mobile constructions, DECMO offers adapted equipment.

■ DECMO is present on the exhibitions related to our business sectors.
