**MECHANICAL AND ELECTRONIC
LOCKING SYSTEMS
HANDLE BAR SWITCHES
FUEL TANK CAPS
ASSEMBLING MACHINES**

Zadi Group, for more than 50 years, designs and manufactures electromechanical components for automotive, agricultural and industrial sectors, developing projects in co-design for the most prestigious manufacturers in the world of motorcycles, recreational vehicles, minicar and tractors.

The wide range of components including mechanical lock kits, electromechanical and electronic immobilizers, analogical and digital tools and dashboards, lamps and bike lights, switches and odometers, among which the advanced systems "keyless hands-free" and "full led" bike lights.

During the years, **Zadi Group** has consolidated its know-how combining process knowledge and investments in technology in order to enhance company performances.

Zadi Group has a mechanical workshop to support its production departments. The realization and maintenance of moulds guarantee high efficiency and high quality performances.

Our industrial identity is focused in the high value of the process integration between: Research and development, industrialization, assembling, die-casting, plastic moulding, metallization process, quality of the products, costumers support.

Since the beginning of its activity, zadi company focused on the importance of r&d with the aim of support the costumer throughout all the steps of product development.

We can count on a R&D and testing laboratory to meet requested specifications and to have systematic control of processes.

Since 2013, **Zadi Group** is part of HB4, an emerging, modern and dynamic Italian holding.

***Zadi Group** da oltre 50 anni progetta e produce componentistica elettromeccanica per il settore automotive, agricolo ed industriale, sviluppando progetti in co-design per i più prestigiosi costruttori mondiali di motocicli, veicoli ricreazionali, minivetture e trattori.*

***Zadi Group** vanta una vasta gamma di componenti che comprende: kit di serrature meccaniche, elettromeccaniche ed elettroniche con immobilizer, strumenti e cruscotti analogici e digitali, fanali e luci, interruttori e odometri.*

*Tra i prodotti all'avanguardia spiccano gli avanzati sistemi "keyless-hands free" e la fanaleria "full led". I campi di applicazione vanno dal motociclo ai veicoli per il tempo libero, dal giardinaggio all'industria. Nel corso degli anni, **Zadi Group** ha consolidato il suo know-how che unisce le conoscenze di processo e gli investimenti nella tecnologia al fine di migliorare le prestazioni aziendali.*

***Zadi Group** ha un laboratorio meccanico per supportare i suoi reparti di produzione. La realizzazione e la manutenzione di stampi garantiscono alta efficienza e prestazioni di alta qualità.*

La nostra identità industriale è focalizzata nell'integrazione del processo tra: industrializzazione, assemblaggio, pressofusione, stampaggio plastico, processo di metallizzazione, controllo qualità.

*Dall'inizio dell'attività, il **gruppo Zadi** si è focalizzata sull'importanza della Ricerca e Sviluppo ed ha il controllo diretto su di esso.*

*Possiamo contare su di un laboratorio di ricerca e sviluppo e testing per rispondere alle specifiche richieste e per avere un controllo sistematico dei processi. La lunga esperienza e la competenza del team di **Zadi** garantiscono le soluzioni più innovative, affidabili e convenienti per il cliente, in linea con le sue esigenze specifiche.*

*Dal 2013 **Zadi** fa parte del gruppo HB4, un gruppo industriale italiano emergente, moderno e dinamico.*

Zadi Group develops products in co-design for OEM market and for the accessories after market.

The product range includes:

- Modern front and rear led lighting systems
- Integrated systems of switching on "keyless; with active key and electric fuel cap
- Elaborated electronic devices on handles, with cruise-control and radio transmission
- Electronic dashboards
- Kits of locks and fuel cap
- Traditional lighting equipment
- Rear-view mirrors
- After market accessories.

COMPETENCE. Our products are the result of a fusion among internal competencies in mechanical, optical and electronic design, production technology, process engineering, together with the multi-year knowledge of the market and the consciousness of the final Customer requirements, regarding quality performance levels.

FLEXIBILITY. We aim at the innovation but without forgetting the practicality of the traditional technologies. We look for the best balance between extreme stylistic proposals and their realization in an efficient and solid way.

RELIABILITY. In accordance to the APQP and PPAP principles and through our process controls we aim to supply products , which are able to guarantee to our Customers the full achievement of the set requirements.

EFFICIENCY. Our challenge is to create added value as we have the real knowledge of the technology we propose. Our purpose is to be able to produce at the best conditions in our country, through investments in modern and efficient production processes.

Zadi Group sviluppa prodotti in co-design per il mercato OEM e per l'after market.

La gamma di prodotti comprende:

- Moderni sistemi di illuminazione a led anteriori e posteriori
- Sistemi integrati di accensione "keyless-hands free"
- Elaborazione di dispositivi elettronici su maniglie, con cruise-control e trasmissione radio
- Dashboard elettronici
- Kit di serrature e tappo del carburante
- Apparecchiature di illuminazione tradizionali
- Specchietti retrovisori
- Accessori after market.

COMPETENZA. I nostri prodotti sono il risultato della fusione tra competenze interne nella progettazione meccanica, ottica ed elettronica, tecnologie di produzione all'avanguardia, ingegneria di processo, insieme con la conoscenza pluriennale del mercato e la consapevolezza delle esigenze del cliente finale riguardo i livelli di qualità richiesti.

FLESSIBILITÀ. Puntiamo all'innovazione ma senza dimenticare la praticità delle tecnologie tradizionali. Cerchiamo il miglior equilibrio tra le proposte stilistiche estreme e la loro realizzazione in modo efficiente e solido.

AFFIDABILITÀ. In accordo con i principi APQP e PPAP e attraverso i nostri controlli di processo, puntiamo a fornire prodotti che siano in grado di garantire ai nostri clienti il pieno raggiungimento dei requisiti stabiliti.

EFFICIENZA. La nostra sfida è creare valore aggiunto, dal momento che abbiamo una profonda conoscenza della tecnologia che proponiamo. Il nostro scopo è quello di essere in grado di produrre nelle migliori condizioni, nel nostro paese, attraverso investimenti in processi di produzione moderni ed efficienti.

THE LOOK OF OUR PRODUCTS
UNDERLINES OUR ABILITY,
OUR CREATIVITY, OUR INTUITION
AND OUR KNOW-HOW.

THE INTEGRATION OF PROCESSES
REPRESENTS FOR US
OUR CONSTANT COMMITMENT
TO GUARANTEE CUSTOMER
SATISFACTION.

This specific industrial identity is the real added value of Zadi approach compared to some competitors who chose to relocate their production, losing the control of quality and organization. The more is the process integration the more is the quality of products and the support of the customer.

The Zadi Group has direct control of research and development, industrialization, assembling, die-casting, plastic moulding and metallization process.

In 1977, to guarantee a high quality production, especially in the assembly phases of the components, Zadi established CSI, a small highly qualified company, dedicated to the design and construction of industrial automations for the companies of the Group. Today CSI develops all production equipment according to "poka yoke logics".

In addition, CSI has a production linked to the Vehicle Business Unit, in particular for the Caravan Division.

La forte identità industriale è il vero valore aggiunto dell'approccio Zadi rispetto ad alcuni concorrenti, che hanno scelto di trasferire la propria produzione all'estero, perdendo il controllo della qualità e dell'organizzazione. Maggiore è l'integrazione del processo, maggiore è la qualità dei prodotti e il supporto del cliente.

Il Gruppo Zadi si occupa, dal suo interno, di ricerca e sviluppo, industrializzazione di processo, assemblaggio, pressofusione, stampaggio plastico e alluminatura.

Nel 1977, a garanzia di una produzione di altissima qualità, soprattutto nelle fasi di montaggio dei componenti, Zadi costituisce CSI, una piccola azienda altamente qualificata, che si dedica alla progettazione ed alla costruzione di automazioni industriali per le aziende del Gruppo. Oggi CSI sviluppa tutte le attrezzature di produzione secondo logiche poka yoke.

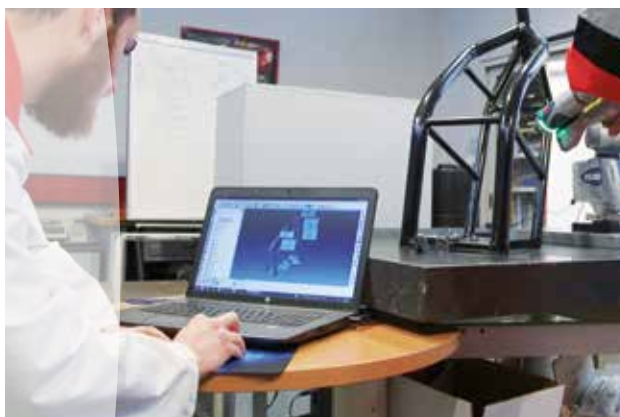

Inoltre CSI ha una produzione legata alla Vehicle Business Unit, in particolare per la divisione caravan.

CEVLAB. Company located in Lainate, Piacenza and Carpi, it is specialized in technical consultation, design and test for lighting and automotive Companies. It works in collaboration with other companies in different production fields; they are keen on investment in technology, Made in Italy and production process integration.

CEVLAB. Società con sede a Carpi, Lainate e Piacenza è specializzata nell'erogazione di servizi tecnici di consulenza, progettazione e testing, principalmente per aziende operanti nei settori della componentistica automotive e nella produzione degli apparecchi di illuminazione. La Società è presente in diversi settori di produzione, in collaborazione con più aziende, con in comune una visione strategica fortemente orientata all'investimento in tecnologia, al Made in Italy e all'integrazione dei processi produttivi.

TOURNING IDEAS
INTO VALUES.
KNOW HOW, INNOVATION,
RELIABILITY, EFFICIENCY.

Notes

- Standard colors are **RAL9010** for the color WHITE and **RAL9017** for the color BLACK
- It is possible to create new colors at the customer's request and combinations between products on customer request, with specific quotation.
- At the time of printing, RAL and color images in the catalog can be influenced by different factors and be different from the original tone.
- In the products where indicated: **with key and barrels / con chiave e rotore*
We mean key sets with ZADI logo; it is possible to develop customized keys on request with quotation.
- The standard packaging consists in with a box with the ZADI logo, which dimensions depending on the products and the supply lots. Other types of packaging require specific quotation.
- We recommend requesting a samples before making a final order.
- We offer customers the possibility of consulting in the design and customization of their products.

Note

- Sono da considerarsi colori standard i **RAL9010** per il colore BIANCO e il **RAL9017** per il colore NERO
- È possibile la **realizzazione di nuove colorazioni e abbinamenti tra prodotti** su richiesta del cliente, con quotazione specifica
- Al momento della stampa, le tinte RAL e immagini a colori presenti all'interno del catalogo possono essere influenzate da diversi fattori e **risultare differenti dalla tonalità originale.**
- Nei prodotti dove indicato: **with key and barrels / con chiave e rotore*
Si intende l'utilizzo di chiavi con logo ZADI; è possibile sviluppare chiavi personalizzate su richiesta con quotazione.
- Il confezionamento standard è da intendersi con scatola in cartone con logo ZADI, in dimensioni variabili a seconda dei prodotti e dei lotti di fornitura. Altre tipologie di confezionamento richiedono quotazione specifica.
- Si consiglia la richiesta di una **campionatura** prima di effettuare un ordine definitivo.
- Offriamo ai clienti la possibilità di **consulenza nella progettazione e customizzazione dei propri prodotti.**
